

# AGR – first of all they are animals!

## ■ AH legislation:

- Registration and identification
- Movement, trade and import conditions for live animals and their germinal products
- Traceability, veterinary and zootechnical checks- trade & imports
- Disease control and eradication programmes
- Animal Welfare

Do not expect too many  
derogations

## AGR –AH Conditions – Live Animals

- Directive 64/432/EEC – trade in bovine and swine
- Directive 91/68/EEC – trade in ovine and caprine
- Directive 2004/68/EC – imports of ungulates
  - Decision 79/542/EEC – quarantine at SP&MQ
- Directive 90/426/EEC – trade/imports equidae
  - Decision 93/197/EEC – quarantine at SP&MQ
- Directive 90/539/EEC – trade/imports poultry & hatching eggs
- Directive 92/65/EEC – trade/imports other live animals
  - quarantine provisions - approved bodies, centres and institutes
- Reg. (EC) No 998/2003- movement of pet animals
- Directive 91/67/EEC – placing on the market of aquaculture animals

## AGR –AH Conditions – Germinal Products

- Directive 88/407/EEC - trade/imports bovine semen
- Directive 90/429/EEC - trade/import of porcine semen
- Directive 89/556/EEC - trade/imports bovine ova/embryo
- Directive 92/65/EEC - trade/imports other semen, ova, embryos

### Specific provisions useful for AGR:

- 88/407/EEC - new model certificate for semen collected before 31/12/2004 (possibly IBR vaccinated bulls)
  - semen storage centres
- 89/556/EEC - embryos produced from such semen may be imported

## AGR - Control measure

- 92/35/EEC – African horse sickness (vaccination, wildlife)
- 2000/75/EC – Bluetongue (vaccination)
- 2001/89/EC – Classical Swine Fever (vaccination)
- 2003/85/EC – FMD (outbreak control, vaccination, post-recovery movement)
- 2005/94/EC – Avian Influenza (control, emergency and preventive vaccination)
- Veterinary Control Directives – safeguard clauses

### Control measures useful for AGR :

- measures to improve **bio-security**
- derogations from stamping out for **pre-defined** populations
- regionalisation, compartmentalisation
- provisions to ease **emergency vaccination** for certain populations
- provisions for **preventive vaccination** against AI and Bluetongue
- plans for disease control in **wildlife** (CSF vaccination wild boar)
- derogations for post –recovery **trade in vaccinated animals**
